SUMMARY

Losing their jobs to IT!™ is one thing. Losing grasp of known reality is another. Trapped in subspace, the Atalanta Empress floats outside regular space-time -- and into the middle of a multidimensional smuggling operation. It has IT!™'s name written all over it. Seriously, it's stamped on the boxes. As captain, Frankie decides to hide from the shenanigans, until the psychic triplets hear from their sister. She's in trouble, and time -- regular time -- is of the essence. Revealing their ship to IT!™ becomes their only option for a speedy rescue. This action could cost them their lives, but continuing to hide could mean possibly losing a triplet, and definitely dying of boredom. If there were rocks and hard places in subspace, the Atalanta Empress would at least have a view. The second novella in Atalan Adventures features non-automatic automatic doors, phosphenes, and a blatant disregard for emergency savings.

ABOUT THE AUTHOR

RM Hamrick uses her engineering degree from Georgia Tech to repair her car every other month and to further break appliances before throwing them away. She lives in central Florida where alligators, armadillos, and Publixes roam freely. Like her, Hamrick's science fiction is short and stuffed with humor and heart.
