BOOK DETAILS

Genre Science Fiction

LOGLINE

A woman from Earth with special abilities is ripped from her family and taken galaxies away by aliens who intend to turn her into a supersoldier. Her only chance for escape is an arrogant alien soldier, but can she trust him. He's one of them. The irresistible attraction between them complicates things.

SUMMARY

Stolen from Earth...only to learn she's not entirely human. Mina, a wife and mother, is snatched from her family and forced to serve the ruthless Lostai on a distant science station. The DNA of an evolved race known as Sotkari Ta lies dormant in her genes. The Lostai, determined to harness her latent telekinetic and telepathic abilities, push Mina through a brutal boot camp. Despite the hardships and abuse, Mina completes her training and is assigned her first mission, one that goes against her most basic principles. A mission she will not accept. If Mina is to escape the Lostai, she must trust an arrogant and unpleasant soldier whose morals seem questionable, at best. The strong attraction between them both annoys and unnerves her. Even if she gets away, she will need to survive in this alien environment while evading the Lostai. Will she ever make it back to Earth, or have her actions already changed her destiny and the fate of those who assist her? Content Disclosure. This series is a space opera with strong romantic elements and heat. It features infidelity, violence, consensual sexual scenes, attempted rape, and sexual and physical abuse. Think Outlander meets Star Wars.

ABOUT THE AUTHOR

I am the author of a romantic space opera trilogy, its prequel, and a companion poetry book. I love to read books written by fellow indie authors of all genres, but my favorites are space opera and dystopian with a romantic subplot. I am currently working on Book One of a new space opera series.
