LOGLINE

Jack’s childhood friend is lost somewhere in the quantum network, and she’s willing to do whatever it takes to get her back.

SUMMARY

Jack’s childhood friend is lost somewhere in the quantum network, and she’s willing to do whatever it takes to get her back. It won’t be easy, with old enemies showing up for revenge at the worst possible time, and a crew who won’t play nice with Mikael Goodwin, the corpo white-hat and spy who might hold all the answers. Jack will need to hone her skills, gear up, and choose her friends wisely in preparation for a clandestine raid on HighHold, the city in clouds that has never been seen by a street-level citizen. A modern take on cyberpunk wrapped in action, suspense, and wit. If you like complex worlds of near-future tech, dystopian struggle, and memorable characters, you’ll love this sequel to the award-winning debut novel, Into the BeanStalk!
