LOGLINE

Amateur detective Alina Katen teams up with the most unusual partner: Merlin, a robot. Well, okay, not technically a robot—he will be the first to tell you he is a Mechanized Recursive Learning Instrument—but, yeah, a robot. With Merlin on her side—despite his incurable child-like outlook on life—it feels like they can solve any mystery...

ABOUT THE AUTHOR

Award winning Science Fiction author Benjamin Boekweg writes stories with clean language, clean romance, and plenty of fun. He grew up watching Star Wars, Star Trek, the original Battlestar Galactica, Buck Rogers in the 25th Century, and Babylon 5. He currently lives in Utah, USA with his amazing wife and has two young children. Being an avid dreamer, he transitioned into writing science fiction rather naturally. Some of his most cherished moments are when his children ask him to read his books to them, and when they randomly quote his stories at meal time.

One of his favorite quotes is from Robert Kennedy, "Some men see things as they are, and say why. I dream of things that never were, and say why not."
