SUMMARY

Finalist in the 2025 Wishing Shelf Book AwardsFinalist in the 2026 Indies Today Awards _____ Sent by Omni Authority into dangerous territory, the crew of the Michal is tasked with delivering medical equipment and relief supplies. But unbeknownst to them, their captain has a classified assignment of his own. Captain Trevor Lee runs a tight ship. Haunted by past mistakes and guarding a dangerous secret, he clings to routine, loyalty, and his cargo vessel. He trusts his crew. He relies on order. The only problem is...her. Gemma Stone is one of the best pilots on Earth and she knows it. Sharp-tongued and fiercely independent, she's not about to back down from her new captain, even if they're only one snark away from war. When a crash leaves them stranded on an uncharted planet, Trevor and Gemma must survive hostile terrain—and each other's jibes—long enough to complete their mission. And after that... they still have to find a way home.
